About Me

I am PhD physicist and AI researcher with interdisciplinary experience along Europe and south America. I have a PhD degree in physics from my hometown university, south of Brazil, carried with a 2 years exchange program at Heidelberg University in Germany. My first post-doc I did at Oxford University in United Kingdom. Currently I am based in Spain, working at ICFO - institute of photonics sciences developing deep learning computer vision techniques applied to super-resolution microscopy and single molecule localization.

Personal Interests: Music (and play), Cinema, Sculpture, Museums, Running, Hiking, Skating, Beach, Eating Good, Drinking Good (Specialty Coffee and Craft Beers), Rural Tourism.
